This is a digital copy of a book that was preserved for generations on library shelves before it was carefully scanned by Google as part of a project to make the world's books discoverable online.

It has survived long enough for the copyright to expire and the book to enter the public domain. A public domain book is one that was never subject to copyright or whose legal copyright term has expired. Whether a book is in the public domain may vary country to country. Public domain books are our gateways to the past, representing a wealth of history, culture and knowledge that's often difficult to discover.

Marks, notations and other marginalia present in the original volume will appear in this file - a reminder of this book's long journey from the publisher to a library and finally to you.

Usage guidelines

Google is proud to partner with libraries to digitize public domain materials and make them widely accessible. Public domain books belong to the public and we are merely their custodians. Nevertheless, this work is expensive, so in order to keep providing this resource, we have taken steps to prevent abuse by commercial parties, including placing technical restrictions on automated querying.

We also ask that you:

+ *Make non-commercial use of the files* We designed Google Book Search for use by individuals, and we request that you use these files for personal, non-commercial purposes.
+ *Refrain from automated querying* Do not send automated queries of any sort to Google's system: If you are conducting research on machine translation, optical character recognition or other areas where access to a large amount of text is helpful, please contact us. We encourage the use of public domain materials for these purposes and may be able to help.
+ *Maintain attribution* The Google "watermark" you see on each file is essential for informing people about this project and helping them find additional materials through Google Book Search. Please do not remove it.
+ *Keep it legal* Whatever your use, remember that you are responsible for ensuring that what you are doing is legal. Do not assume that just because we believe a book is in the public domain for users in the United States, that the work is also in the public domain for users in other countries. Whether a book is still in copyright varies from country to country, and we can't offer guidance on whether any specific use of any specific book is allowed. Please do not assume that a book's appearance in Google Book Search means it can be used in any manner anywhere in the world. Copyright infringement liability can be quite severe.

About Google Book Search

Google's mission is to organize the world's information and to make it universally accessible and useful. Google Book Search helps readers discover the world's books while helping authors and publishers reach new audiences. Books and pamphlets distributed and exchanged	12,604

CONDITION OF THE STATE LIBRARY.

The work of building up and increasing the usefulness of the State Library has been very satisfactory. A complete catalogue of the Law Department has been compiled, the work having been done by Mr. S. A. Tomlinson, clerk in charge of that department. The card catalogue has been increased about seven thousand cards, and a new catalogue for the general department has been commenced and will be carried on as rapidly as the regular work of the library will permit.

In this connection, the Librarian wishes to acknowledge her obligations to Mrs. L. B. Ronan, her assistant, and to the clerks connected with the State Library for the intelligent and conscientious manner in which their work has been done.

JENISON COLLECTION.

The Librarian, with the permission of the Governor, has purchased the valuable collection of books relating to Michigan, collected by the late Orien A. Jenison. The unique character of the collection is shown in the carefully prepared catalogue which may be found in the supple-

ment to this report. Among the books in this remarkable collection are four large volumes giving the history of the present capitol from its foundation to completion; also a complete set of manuals with autographs and portraits, and a collection of speeches of men who have been leaders in the civic history of the State.

ASSOCIATE LIBRARIES.

In 1895, a new law was enacted for the government of the State Library. The object of the law was to bring the library into closer and more sympathetic touch with the people of the State, and to remove from the public mind the idea that the taxpayers of the State were debarred from the privileges of an institution to the support of which they were contributing. With this in view, the "Associate" and "Traveling Library" systems were embodied in the law and it is a pleasure to state that both of these new departures in library work have been in every way successful. Under section eleven, of the act of 1895, ten libraries have become Associate with the State Library, receiving all the advantages of such relationship. The names of the libraries are as follows:

Battle Creek Public Library.
Bay City Public Library.
Detroit Public Library.
Dowagiac Ladies' Library.
Grand Rapids Public School Library.
Genesee and Burton Ladies' Library.
Hackley Public Library, Muskegon.
Kalamazoo Public Library.
Lansing Public Library.
Plainwell Ladies' Library.
Port Huron Public Library.
State Normal School Library.

Under the provisions of the law, thirty-five patrons of Associate Libraries have used books from the State Library; in no case has the privilege been abused and the results have been most satisfactory. Reports of Associate Libraries may be found in the supplement to this document.

TRAVELING LIBRARIES.

The most interesting and satisfactory results have been obtained from the Traveling Library system. Acting under section eighteen of the new law, libraries of fifty volumes each were carefully prepared and sent out to the following organizations:

Twenty-five taxpayers in any community.
Granges.
Reading clubs and circles.
Associate libraries.

The object of this distribution of libraries, under the auspices of the State, was to place the best literature in the hands of those who live at a distance from the large towns and literary centers; to aid study clubs who are deprived of the advantage of local libraries; and to develop in the remote portions of the commonwealth a desire for good books which would tend to the establishment of public libraries. The results have exceeded the expectations of the projectors of the movement. The libraries have, with one or two exceptions, gone to small towns and farming communities and the reports received from the local librarians have been in every case enthusiastic and commendatory. The first library was sent out May 14, 1895, to North Star; since that time libraries have been sent to the following places:

Alpine Grange.
Ann Arbor Y. M. C. A.
Bath,
Battle Creek Reading Circle.
Belding.
Big Rapids.
Bridgewater.
Burlington.
Cadillac.
Cadmus Grange.
Carson City.
Columbiaville, Rebecca Lodge.
Elba.
Fitchburg, Bunker Hill Grange.
Flint, Genesee and Burton L. L. A.
Flushing, Reading Club.
Four Towns.
Gagetown Farmers' Club.
Gilead Grange.
Gladwin Subscribing Association.
Hanover.
Ionia, Berlin Grange.
Ionia, Banner Grange.
Kenton.
Lawton.
Leslie Reading Club.
Litchfield Grange.
Mason Tourist Club.
North Star, Liberty Grange.
Norway, Y. M. C. A.
Owosso, Y. M. C. A.
Parkville Township.
Paw Paw Grange.
Romeo Monday Club.
Rose City.
Sagola Reading Club.
Saranac.
Sharon.

Standish.
Stony Creek Epworth League.
Twelve Corners Grange.
Vermontville.
Walworth, Rome Center Grange.

Forty-four libraries (37 regular, 5 special and 2 miscellaneous collections sent out uncatalogued) have been kept in circulation from the cards of which we have gathered the following statistics:

Library.	Circulation.	Library.	Circulation.
1	226	16	206
2	233	17	348
3	396	18 and 18a	460
4 and 4a	404	19	178
5	204	20	171
6	204	21	123
7	271	22	253
8 and 8a	205	23	96
9 and 9a	840	24 and 24a	111
10	112	25	272
11 and 11a	158	26 and 26a	299
12	157	27	166
13	85	28	89
14	317	29	83
15	283	31	165

Many interesting statistics might be given showing the comparative popularity of the books and the varying tastes of the different communities, but the consideration of this subject will be fully enlarged upon in a bulletin which we hope to issue in the near future.

In addition to the miscellaneous libraries, special collections have been sent to study clubs in the following places:

Mason ..... Shakespeare.
Big Rapids ..... English History.
Vermontville ..... French History.
Romeo ..... Mexican History.
Cadillac ..... Miscellaneous Library.

The members of these clubs report that they would have been unable to have pursued their studies without the aid of the traveling libraries.

The total circulation of the books from May, 1895, to June 30, 1896, has been 7,473. The number of readers 1,483. With two exceptions, all of the above named places are now using their second library; two of them have the third. The cards belonging to the second libraries not having been returned it is impossible to give the exact circulation of the books, but a very moderate estimate would place it at 10,000 volumes.

The highest circulation was reached at Walworth where library number nine had a circulation of 349. Owosso followed very closely, the books in number seventeen being read 348 times. A mistaken idea as

to the necessity of keeping a close record of the readers kept the report of circulation down to 15 in one library; the others range from 73 to 349.

FOREIGN EXCHANGES.

Encouraging progress has been made in perfecting a system of foreign exchanges. From the British Government we have received the very valuable reports of the English Patent Office and have been placed on their list for current publications. Only three or four libraries in the United States have these valuable documents. Favorable responses to requests for exchange have been received from New Zealand, Argentine Republic, Chile, France and Germany, and shipments of Michigan documents are being made to these points.

MICHIGAN PIONEER AND HISTORICAL SOCIETY COLLECTIONS.

The work of gathering and compiling the early history of the State of Michigan has gone steadily on. Volumes 21 to 26 inclusive, have been added to the set, and their value is becoming more largely appreciated by the country at large. Their distribution to the school libraries has been continued, and by the direction of the executive committee of the Pioneer Society, "any district school having a library of twenty-five volumes, exclusive of State and government documents" may receive a set of the Pioneer Collections. Acting under this rule, sets of the publications have been sent to all parts of the State and form a valuable part of the district school libraries.

The Librarian wishes to respectfully urge upon your honorable body the necessity of carrying on this very important work. Time is rapidly obliterating the old landmarks, the pioneers are passing away and there will soon be no authentic sources from which can be gathered the early history of Michigan. It is hoped and believed that the generous support given to this work in the past will be accorded by the present legislature.

In conclusion the librarian wishes to call attention to the following facts:

It is generally acknowledged that the Michigan State Library is one of the strongest in the United States. It remains with your honorable body to decide whether it shall hold its position as a leader in library work, or recede from its enviable position. Working under the law of 1895, the State Library is not only a magnificent reference library for the student who may visit the department, but has also extended its help and influence to the most remote portions of the State. The traveling library system is in the interest of the constituency of every Michigan legislator; for the benefit of every county, township and district in the State. There is not a home in Michigan that is not interested in the success of the traveling library movement, not a taxpayer but should insist upon the support of a movement which is entirely in his interest. It is a pleasure to state that Michigan was the second State to adopt the traveling library system, following closely upon New York where the law was in operation a year earlier.

It is hoped and earnestly requested that when the appropriation for the maintenance of this system comes before you it will meet with your prompt and generous approbation. In this connection you are respectfully urged to consider the idea of making a permanent appropriation for the support of the library. The Librarian could work to much better advantage in arranging for the purchase of books if the amount were fixed to a certainty. Many rare opportunities to buy are lost on account of the uncertainty as to the amount of a future appropriation. The advantage of this plan is so obvious that it does not seem presumptuous to ask your consideration of the subject.

Very respectfully,

MARY C. SPENCER,
State Librarian.
